

How to Submit Smart Claims

Molina Healthcare Providers

Important Notes About Using Availity

When you use Availity Essentials, results and data come from payer systems. Information can vary by payer, plan, product, member, your user permissions, and so on.

Information and images were current at the time this presentation was developed. Screen images and demonstrations are from a demo environment containing pre-loaded generic, deidentified information. Information might also be redacted or blurred.

It is a violation of HIPAA regulations to share credentials to a system that contains PII or PHI. Do not share an Availity user ID with others. Your organization's Availity administrator sets up user ID's and assigns roles.

You should know ...

Availity supports Google Chrome, Mozilla Firefox®, and Microsoft Edge v79.

Be sure to allow pop-ups from:

- Availity Essentials: apps.availity.com
- Availity website: www.availity.com
- Availity Learning Center (ALC): <https://availitylearning.learnupon.com>
- Or any third-party websites accessed from Availity Essentials, such as a payer's website

What we'll cover

Looking for more training?

Availity offers free on-demand and live training in the Availity Learning Center (ALC). Log in and select **Help & Training | Get Trained** to search the ALC catalog, including:

What's new for providers?

For Molina Healthcare Providers

Smart Claims Benefits:

- ❖ The ability to use data from eligibility and benefits submissions to search for patients and autofill your claim.
- ❖ Create and Save Templates
 - Save a group of patients (up to 50) as a template to accelerate future claim submissions (primary claims only).
- ❖ Simplified Claim Entry Tool
 - Includes only the essential fields you need.

Helpful Tips

Tip # 1 – Claims Role Required

<p>ABC Clinic Group</p> <p>NPI [blurred]</p> <p>Tax ID N/A</p>	<p>View/Edit provider</p> <p>Copy provider to another organization</p> <p>Remove provider from organization</p>
<p>Provider, Atypical Individual</p> <p>NPI N/A</p> <p>Tax ID 123456789</p> <p>Primary Taxonomy 311ZA0620X Adult Care Home</p>	
<p>Provider, Joe Individual</p> <p>NPI N/A</p> <p>Tax ID 123456787</p> <p>Primary Taxonomy 207QA0505X Adult Medicine</p>	

Help! I am an atypical provider and set up my providers with NPI's.

It's ok! You can correct this by...

1. Remove the atypical provider that was added with an NPI from the organization.
2. Readd the provider, but this time select that option stating "this is an atypical provider..."

Why is this important?

Your claim may be denied if the billing provider is atypical but has an NPI added within Manage my Organization.

Tip # 3 – Run an Eligibility and Benefits Inquiry

The screenshot displays the Availity Essentials web application interface. The top navigation bar includes the Availity logo, 'essentials', 'Home', 'Notifications 1', 'My Favorites', 'Help & Training', 'Jennifer's Account', and 'Logout'. Below this, a secondary navigation bar contains 'Patient Registration', 'Claims & Payments', 'My Providers', 'Reporting', 'Payer Spaces', and 'More'. A search bar labeled 'Keyword Search' is located on the right. The main content area features a sidebar with four menu items: 'EB Eligibility and Benefits Inquiry' (highlighted with an orange border), 'A&R Authorizations & Referrals', 'EP View Essentials Plans', and 'PCS Patient Care Summary Inquiry'. A feedback section at the bottom left asks 'Tell us what you think.' with three smiley face icons. The main content area includes a 'Search for a Provider' dropdown, an 'NPI' field with a help icon, and a 'Provider Last Name/Org Name' field. A blue 'New Request' button is visible in the top right corner of the main content area.

By submitting an eligibility and benefits inquiry for a patient, it will store the patient information for 18 months. You can then use the **Select a Patient** drop-down to automatically fill in the patient information.

Smart Claims

The Smart Claims application dramatically accelerates the claims process for repeatable transactions and includes templates that enable you to reuse information from a submitted claim in subsequent claims.

Use the Smart Claims application when...

- The claim does not have any attachments.
- The patient:
 - has only one insurance provider.
 - has agreed to allow the payer to pay the provider for services.
 - release of information is on file at the service provider or utilization review organization.
 - signature is on file using the authorization form for CMS-1500 claim form block 12 and 13.

Claim Settings

When first opening Smart Claims, administrators will be prompted to configure the claim settings before filing their first claim.
