

Subject: Important Notice: Unblocking Molina Healthcare fax numbers for UM communications

Dear Provider,

We hope this message finds you well. We are reaching out to inform you about an important update regarding the delivery of outbound faxes from Molina Healthcare's Utilization Management (UM) services.

Why you're receiving this notice: We have identified that some of our outgoing faxes have been unable to reach your office due to phone service providers blocking certain overflow-fax numbers not publicly listed as Molina Healthcare's known numbers. This has impacted the timely delivery of important patient care information and authorizations.

How you can help: To ensure uninterrupted communication and efficient processing of patient requests, we kindly ask you to take the following steps:

1. **Verify** that any phone or fax number filters in place on your system do not block unlisted numbers from Molina Healthcare.
2. **Unblock** the following specific fax numbers that may be used for overflow or high-volume fax transmissions:
 - (732) 313-0795
 - (732) 813-8693
 - (732) 813-8694
 - (732) 813-8696
 - (732) 813-8698
 - (732) 813-8726
3. **Add** Molina Healthcare to your trusted or allowed list for incoming communications.

Our commitment to you: We are dedicated to maintaining open and reliable communication with our health care partners. By unblocking these numbers, you help ensure that critical faxes related to authorizations and patient care reach your office promptly.

If you have any questions or need assistance with updating your phone system to allow these numbers, please do not hesitate to contact our support team at SWHProviderRelations@molinahealthcare.com.

Thank you for your attention to this matter and for your continued partnership in delivering quality care to our members.

Sincerely,

Molina Healthcare
