Claim Submission

Molina strongly encourages providers to submit claims electronically, including secondary claims. Electronic claim submissions provide significant benefits to the provider including:

- Reduces operation costs associated with paper claims (printing, postage, etc.)
- Increases accuracy of data and efficient information delivery
- Reduces claim delays since errors can be corrected and resubmitted electronically
- Eliminates mailing time and claims reach Molina faster

Molina offers the following electronic claims submission options:

- Submit claims directly to Molina via the Availity Essentials portal
- Submit claims to Molina via your regular EDI Clearinghouse

If electronic claim submission is not possible, please submit paper claims to the following address:

Molina Healthcare of Washington, Inc.

PO Box 4004

Bothell, WA 98041

When submitting paper claims:

- Paper claim submissions are not considered to be “accepted” until received at the appropriate claims P.O. Box.
- Claims received outside of the designated P.O. Box will be returned for appropriate submission.
- Paper claims are required to be submitted on original red and white CMS-1500 and CMS-1450 (UB-04) claim forms.
- Paper claims not submitted on the required forms will be rejected and returned. This includes black and white forms, copied forms, and any altering including handwritten claims.
- Claims must be typed with either 10 or 12-point Times New Roman font, using black ink.

For more information, please see CMS claims submission guidance:

<https://www.cms.gov/Medicare/Billing/ElectronicBillingEDITrans/1500>

Consumer Assessment of Healthcare Providers and Systems (CAHPS®)/ Marketplace Qualified Health Plan (QHP) Enrollee Experience Survey

The Consumer Assessment of Healthcare Providers and Systems (CAHPS®)/Marketplace Qualified Health Plan (QHP) Enrollee Experience Survey is an industry standard survey tool used to evaluate patient satisfaction. Improving patient satisfaction has many benefits. It not only helps to increase patient retention but can also help increase compliance with physician recommendations and improve patient outcomes.

Focusing together on a positive patient experience will have many important benefits to your practice including:

- Increase patient retention
- Increase compliance with physician clinical recommendations
- Improve patient’s overall wellness and health outcomes
- Ensure preventive care needs are addressed more timely
- Reduce no show rates

Additional resources are available for office staff and patients:

- For additional after-hours coverage, Molina Healthcare members can call the 24-Hour Nurse Advice Line (open 7 days) at 1-888-275-8750, TTY 711.
- Molina Healthcare members can access Interpreter Services at no cost by calling Member Services at:
 - Medicaid: (800) 869-7165
 - Medicare: (800) 665-1029

- o Marketplace: (888) 858-3492
- o TTY 711
- Providers can access the Availity Essentials at provider.molinahealthcare.com to:
 - o Search for patients and check member eligibility
 - o Submit service request authorizations and/or claims and check status
 - o Review Patient Care Plan
 - o Obtain CAHPS® Tip Sheets
 - o Participate in online Cultural Competency trainings (also available at MolinaHealthcare.com)

Please encourage your patients who have received the CAHPS®/QHP survey to participate. Listed below are several questions asked in the survey regarding patient care:

- When you needed care right away, how often did you get care as soon as you needed?
- When you made an appointment for a check-up or routine care at a doctor's office or clinic, how often did you get an appointment as soon as you needed?
- How often was it easy to get the care, tests and treatment you needed?
- How often did your personal doctor listen carefully to you?
- How often did your personal doctor spend enough time with you?
- How often did your personal doctor explain things in a way that was easy for you to understand?
- How often did you and your personal doctor talk about all the prescription medicines you were taking?
- How would you rate your personal doctor?

Molina Healthcare's 2022 Quality Improvement Results

Molina Healthcare conducts an annual program evaluation to assess how well we meet the performance goals and objectives for improving the quality and safety of clinical care and services specified within the Quality Improvement Program description and annual Work Plan. Below are highlights from the annual evaluation.

CAHPS®/QHP Enrollee Experience Survey

The Consumer Assessment of Healthcare Providers and Systems (CAHPS®)/Marketplace Qualified Health Plan (QHP) Enrollee Experience Survey assesses Molina members' satisfaction with their health care. It allows us to better serve our members.

Molina has received the CAHPS®/QHP results of how our members rated our providers and our services.

Medicaid: In 2022, Molina Healthcare improved in Care Coordination, Rating of Specialist Seen Most Often, Customer Service, and How Well Doctors Communicate in measures over the prior year.

Improvements are needed in the following areas: Getting Needed Care, Getting Care Quickly, Rating of Health Care, Rating of Personal Doctor, Rating of Health Plan and Ease of Filling Out Forms.

Marketplace: In 2022, Molina improved in Rating of Health Plan, Rating of Health Care, Rating of Specialist, Cultural Competence, Care Coordination, Medical Assistance with Smoking /Tobacco Use Cessation and Enrollee Experience with Cost.

We need to make improvements in the following areas: Rating of Personal Doctor, Access to Care, Access to Information, Plan Administration, How Well Doctors Communicate, Annual Flu Vaccinations, Getting Care Quickly and Getting Needed Care.

Medicare: In 2022, Molina improved in Customer Service, Care Coordination and Getting Needed Prescription Drugs.

We need to make improvements in the following areas: Getting Needed Care, Getting Care Quickly, Doctors Who Communicate Well, Rating of Health Plan, Rating of Personal Doctor, Rating of Specialist Seen Most Often, Annual Flu Vaccine and Overall Rating of Drug Plan.

HEDIS®

Another tool used to improve member care is the Healthcare Effectiveness Data and Information Set or HEDIS®. HEDIS® scores allow Molina to monitor how many members are receiving the services they need. Measures include immunizations, well-child exams, Pap tests and mammograms. There are also scores for diabetes care, prenatal and after-delivery care.

Medicaid: In 2022, Molina improved in Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC) - BMI Percentile, Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC) - Counseling for Nutrition, Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC) - Counseling for Physical Activity, Lead Screening in Children (LSC), Chlamydia Screening in Women (CHL) - Total, Controlling High Blood Pressure (CBP), Comprehensive Diabetes Care (CDC) - Eye Exam (Retinal) Performed, Comprehensive Diabetes Care (CDC) - Blood Pressure Control (<140/90 mm Hg), Follow-Up Care for Children Prescribed ADHD Medication (ADD) - Continuation and Maintenance (C&M) Phase, Appropriate Treatment for Upper Respiratory Infection (URI) - Total, Prenatal and Postpartum Care (PPC) - Timeliness of Prenatal Care and Prenatal and Postpartum Care (PPC) - Postpartum Care.

We need to make improvements in Childhood Immunization Status (CIS) - Combination #10, Immunizations for Adolescents (IMA) - Combination #2, Breast Cancer Screening (BCS), Cervical Cancer Screening (CCS), Appropriate Testing for Pharyngitis (CWP) - Total, Comprehensive Diabetes Care (CDC) - HbA1c Control (<8.0%) and Follow-Up Care for Children Prescribed ADHD Medication (ADD) - Initiation Phase.

Marketplace: In 2022, Molina improved in Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC) - BMI Percentile, Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC) - Counseling for Nutrition, Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC) - Counseling for Physical Activity, Breast Cancer Screening (BCS), Cervical Cancer Screening (CCS), Chlamydia Screening in Women (CHL) - Total, Controlling High Blood Pressure (CBP), Comprehensive Diabetes Care (CDC) - HbA1c Control (<8.0%), Appropriate Treatment for Upper Respiratory Infection (URI) - Total, Prenatal and Postpartum Care (PPC) - Timeliness of Prenatal Care and Prenatal and Postpartum Care (PPC) - Postpartum Care.

We need to make improvements in Appropriate Testing for Pharyngitis (CWP) and Comprehensive Diabetes Care (CDC) - Eye Exam (Retinal) Performed.

Medicare: In 2022, Molina improved in Comprehensive Diabetes Care (CDC) - Eye Exam (Retinal) Performed, Osteoporosis Management in Women Who Had a Fracture (OMW) and Statin Therapy for Patients with Cardiovascular Disease (SPC) - Total Received Statin Therapy.

We need to make improvements in Breast Cancer Screening (BCS), Comprehensive Diabetes Care (CDC) - Medical Attention for Nephropathy and Statin Therapy for Patients with Cardiovascular Disease (SPC) - Total Statin Adherence 80%.

For More information:

The progress related to the goals that Molina has set for the annual CAHPS®/QHP survey results and the annual HEDIS® measures can be viewed in more detail on the Molina website. You can also view information about the Quality Improvement Program there and print a copy if you would like one.

Culturally and Linguistically Appropriate Services/Disability Resources

Molina also assesses the cultural, ethnic, racial and linguistic needs and preferences of members on an ongoing basis. Information gathered during regular monitoring and annual network assessment is used to identify and eliminate cultural and/or linguistic barriers to care through the implementation of programs and interventions.

Medicaid: In 2022, the majority of Medicaid members specified English as their preferred language (90%). Spanish as a preferred language was identified by 7% of Medicaid members. Spanish was the most requested language among Medicaid members through Molina's interpreter services, followed by Russian and Arabic.

Marketplace: In 2022, according to internal databases, 100% of Marketplace members do not indicate a preferred language. Among Marketplace members, Spanish was the most requested language through Molina's interpreter services, followed by Vietnamese and Mandarin.

Medicare: In 2022, the majority of Medicare members speak English as their preferred language (92%). About 3% of Medicare members identified themselves as Spanish speakers. Spanish was the most requested language among Medicare members through Molina’s interpreter services, followed by Russian and Vietnamese.

In 2022, overall, Molina found that the current Culturally and Linguistically Appropriate Services program resources, structure, and practitioner and community participation are sufficient based on member needs. Additionally, Molina has a series of short Culturally Competency training videos on such topics as Health Disparities, LGBTQ+, Immigrants/Refugees, available at provider.molinahealthcare.com and at MolinaHealthcare.com on the *Culturally and Linguistically Appropriate Resources/Disability Resources* page listed under *Health Resources*. Disability resources are also available at this location under Molina Provider Education Series: Americans with Disability Act (ADA), Members who are Blind or have Low Vision, Service Animals and Tips for Communicating with People with Disabilities & Seniors.

Requirements for Submitting Prior Authorization

Molina Healthcare has partnered with MCG Health to offer Cite AutoAuth self-service for advanced imaging prior authorization (PA) requests.

What is Cite AutoAuth and how does it work?

By attaching the relevant care guideline content to each PA request and sending it directly to Molina, health care providers receive an expedited, often immediate, response. Through a customized rules engine, Cite AutoAuth compares Molina’s specific criteria to the clinical information and attached guideline content to the procedure to determine potential for auto authorization.

Self-services available in the Cite AutoAuth tool include, but are not limited to: MRIs, CTs, and PET scans. To see the full list of imaging codes that require PA, refer to the PA Code LookUp Tool at MolinaHealthcare.com.

How to Access and Learn More

Cite AutoAuth can be accessed via the provider.molinahealthcare.com in the Molina’s Payer Spaces. It is available 24 hours per day/7 days per week.

This method of submission is strongly encouraged as your primary submission route, existing fax/phone/email processes are also available.

Watch MolinaHealthcare.com for updated and additional information about Cite AutoAuth.

Council for Affordable Quality Healthcare (CAQH)

What is CAQH?

CAQH technology-enabled solutions eliminate redundant and inefficient administrative processes between health plans and providers for credentialing, directory maintenance,

coordination of benefits and other essential business functions. CAQH offers options to reduce the provider administrative burden.

How Does Molina use CAQH?

Molina is currently using the CAQH DirectAssure application to provide an opportunity for the enrolled providers to attest to their data, update their data in a single place that will be shared by all companies that they are contracted with and utilize CAQH. Molina registers all of our non-delegated credentialed providers for CAQH DirectAssure, and currently pays the monthly fees related to the attestation tools for the providers.

Benefits of using CAQH?

- Decreased administrative burden: CAQH provides a tool to facilitate providers meeting the requirement to attest to their demographics and key information on record with Molina every 90 days.
- Increased Molina support: As providers update their information in CAQH, Molina can systemically update our system, freeing up Molina associates to assist providers with other needs.
- More accurate records: Molina will obtain more frequent provider updates for our records and have more accurate provider information.

How does CAQH work for providers?

Providers enter updated information one time in CAQH and it is shared with multiple entities utilizing the CAQH DirectAssure application. This simplifies the providers' administration work and reduces the need to be tracking who was informed of the changes. The No Surprises Act (NSA) requires providers to attest to their data every 90 days, CAQH provides an effective and efficient way to meet that requirement.

What's next?

Molina is working with providers to encourage CAQH attestation. You may use other credentialing tools mandated by your state's regulatory agencies and think of CAQH as a credentialing only application; however, it offers many other features and benefits beyond credentialing attestations.

Molina is excited to continue our automation and improvement to provider information processes to reduce the administrative burden on providers and make it quicker and easier to update data.

Molina Healthcare's Portal Access

Availity Essentials is now the official secure provider portal for Molina Healthcare providers. The Molina Legacy Provider Portal will be sunset on March 28, 2023. After March 28, 2023, you will no longer have direct access to the Molina Provider Portal.

Within Availity Essentials, you have access to these helpful tools and time-savers:

Claim status	Expanded search options include member name, service dates, claim history or the 276 HIPAA standard. Adjustment and remittance codes, along with their descriptions, at the claim and line level.
Smart claims	A simplified claim entry tool with only the essential fields you need. Use data from prior eligibility and benefits submissions to autofill your claim.
Eligibility and benefits	Use data from prior eligibility and benefits submissions to search for your patients and autofill your claim.
Attachments	Upload supporting documentation with your claims using the <i>Send Attachments</i> feature. You can transmit up to 10 attachments (128 MB total file size) with your claim submission.
Features coming	
Accumulators	Each member/plan submitted returns the Molina plan/dollar and benefit/count accumulated toward the limit.
Prior authorizations	Manage your Molina prior authorizations on Availity and use the Auth/ Referral Dashboard to follow-up on the status of your prior authorizations.

If your organization is not yet registered for Availity Essentials and you're responsible for the registration, please visit Availity.com/Molinahealthcare and click the *Register* button. For registration issues, call Availity Client Services at 1-800-AVAILITY (282-4548). Assistance is available Monday – Friday, 8 a.m. – 8 p.m. ET.

For a comprehensive list of tools and features available on Availity Essentials, log in and click on the *Help and Training* dropdown. As a registered Availity Essentials provider, you can also take advantage of our live webinar, "Availity Essentials Provider Portal Overview for Molina Providers." Check with your Provider Services representative for upcoming dates and times.

Once you have your Availity Essentials account, you can learn more about the features and functionality offered for Molina providers. Simply log in go to *Help & Training > Get Trained* to register for a webinar.

Keep an eye out for information and updates about the Molina provider portal sunset within the provider.molinahealthcare.com and at MolinaHealthcare.com.

Molina's 2023 Medicare Advantage Products Designed to Meet Member Needs

Molina is always working to meet the needs of our members through our diverse Medicare Advantage products offered each year. To help our providers learn more about the specific products being offered in Washington in 2023, we have created a handy summary showing our service areas and highlighting the supplemental benefits for each product offered. Check it out here: [2023 Medicare Fact Sheet Washington](#)

Our Gift to Network Providers: PsychHub Subscription

To provide our valued network providers with the most up-to-date behavioral health resources and education, Molina has partnered with PsychHub to offer a subscription to the PsychHub platform at no cost.

PsychHub is an online platform for digital behavioral health education. Molina network providers can access PsychHub's online learning courses. Some of these courses offer continuing education opportunities for select licensures. There are various learning courses, including the Mental Health Ally Certification Program, which may be beneficial for office staff or providers who are interested in learning more about working with the behavioral health population.

Ready to get started? Molina network providers can access this and other courses that offer continuing education units (CEUs) on the PsychHub platform by clicking the following link and simply creating an account: <https://app.psychhub.com/signup/molina-mhp/>.

To setup an overview of the PsychHub platform and the resources it offers, contact your Provider Services representative.

A screenshot of the PsychHub sign-up form. The form is titled "Let's Get Started" and includes fields for Email address, First name, Last name, and Password. There is also a checkbox for "I agree to and accept the terms and conditions for use of this site." and a "SIGN UP" button. The PsychHub logo is at the top left, and the Molina Healthcare logo is at the top center of the form area.

Encourage your Marketplace Patients to use My Health Perks! (Marketplace Members Only)

My Health Perks is the Molina Member Wellness platform providing free educational content on topics like:

- Smoking cessation
- Diabetes management
- High blood pressure
- Managing depression
- Asthma management
- Healthy eating, nutrition and exercise

Gift card incentive program:

Eligible subscribers and dependents 18 years and older have the opportunity to earn a \$50 gift card by completing **both** of the following activities:

- Complete a preventive wellness examination with their primary care provider; and,
- Complete the designated Health Risk Assessment via the My Wellness tab on the My Molina member portal.

Members who complete both incentivized activities will be eligible for either a physical or digital gift card of their choosing. Members are permitted to use the gift cards at retailers who accept them.

Please encourage members to learn more about the “My Health Perks” program online via the My Wellness tab on the My Molina portal. Members can also contact Customer Support for additional information. Visit: <https://www.molinamarketplace.com/marketplace/wa/en-us/Members/Members%20Resources/My-Health-Perks>.

Clinical Policy Updates - Highlights from Fourth Quarter 2022

Molina Clinical Policies (MCPs) are located at molinaclinicalpolicy.com. The policies are used by providers as well as medical directors and internal reviewers to make medical necessity determinations. MCPs are reviewed annually and approved bimonthly by the Molina Clinical Policy Committee (MCPC). The fourth quarter 2022 updates are noted below.

The following new policies were approved:

- MCP-422: Neuromuscular Electrical Training for the Treatment of Obstructive Sleep Apnea or Snoring (eXciteOSA)
- MCP-421: Intradialytic Parenteral Nutrition (IDPN) and Intraperitoneal Parenteral Nutrition (IPN)
- MCP-419: Remote Patient Monitoring
- MCP-424: Skysona (elivaldogene autotemcel)

The following policies were revised:

- MCP-347: Autologous Chondrocyte Implantation Knee
 - Clarified Coverage Policy section regarding inadequate response to a prior arthroscopic or other surgical repair procedure; added statement regarding

cooperation of member with post-operative weight bearing restrictions and completion of post-operative rehabilitation.

- Contraindications were added to the Limitations and Exclusions (per MACI labeling).
- Osteochondritis dissecans (OCD) was added as Experimental, Investigational, and Unproven.
- MCP-363: Hypoglossal Nerve Stimulation for OSA
 - Addition to Coverage Policy section noting FDA approval and requirements for provider performing the procedure.
 - DISE and SDM criteria were moved from the Exclusions and Limitations to Additional Required Documentation.
- MCP-301: Iluvien (fluocinolone acetonide) intravitreal implant
 - Revised Criteria #3a to note “Triamcinolone acetonide, intravitreal injection OR a previous course of corticosteroid.” (Previously read as “Triamcinolone acetonide, intravitreal injection”).
- MCP-343: Intervertebral Stabilization Devices
 - Updated Summary of Medical Evidence section with current studies and guidelines.
 - Added Related Policies section and two additional intervertebral body fusion devices that received FDA 510(k) clearance in 2021 (IO™ Expandable Lumbar Interbody Fusion System and aprevo™ Transforaminal IBF).
- MCP-235: Measurement of Carotid Artery Intima Thickness
 - Updated Overview and References sections; included current studies and guidelines to the Summary of Medical Evidence section.
- MCP-244: Powered Exoskeleton for Ambulation in Patients with Lower Limb Disabilities (ReWalk)
 - Previously named *Lower-Limb Robotic Exoskeleton (ReWalk-P [Personal]) for Paraplegia in Spinal Cord Injury*
 - Included FDA-approved powered exoskeletons, in addition to ReWalk.
 - Expanded from paraplegia in spinal cord injury to include patients with lower-limb disabilities.
 - Included current clinical studies and guidelines in the Summary of Medical Evidence section.

The following policies have been retired and are no longer available on the website:

- MCP-346: Bioness Foot Drop System (defer to MCG Criteria)
- MCP-259: Xiaflex_Dupuytren's Contracture (defer to Pharmacy PA Criteria)
- MCP-279: Xiaflex_Peyronie Disease (defer to Pharmacy PA Criteria)
- MCP-349: Zilretta (triamcinolone acetonide ER injection) (defer to Pharmacy PA Criteria)
