Healthy Rewards Program

Healthy rewards gift card credits can be used at more places than ever before!

- When you request your first Healthy Reward, you will be issued one Visa benefit card loaded with the credits you earned. From there, each time you submit a Healthy Reward, the new credits will be applied to the same benefit card within seven business days of verification.
- The category of gift card credits on the Healthy Rewards Attestation Form is based on the type of screening completed. Prenatal and postpartum care will be rewarded with baby items credits. All other screenings may be redeemed for any category listed below.
