

# Stay connected with your doctors

As a Molina member, it's important to tell your primary care provider (PCP) about any specialist doctors you see. Your PCP is the main doctor you see for your care.

This helps your PCP know about all your health needs. When your PCP and specialist talk to each other, they can connect about your care. This leads to better health care for you.

## What you can do:

### 1. Sign a Release of Information (ROI) form

Ask your doctor or specialist about completing a Release of Information (ROI) form. This will let them share your health information with each other.

### 2. Inform your PCP

If you see a specialist, let your PCP know at your next visit
