

# **Provider Newsletter**

First quarter 2025

For Molina Healthcare of Arizona, Inc. providers

#### In this issue

- **1** Evaluating Molina's quality performance
- 2 The Consumer Assessment of Healthcare Providers and Systems (CAHPS®)
- 3 IMPORTANT: Changes to NCQA Credentialing requirements
- 4 Update provider data accuracy and validation
- **5** 2025 Molina Model of Care provider training
- 5 Clinical Policy
- 5 Provider Manual updates
- 6 Claims submission
- 7 Member Incentives
- 8 Grievances and appeals updates
- 8 Quality management reminders

## Evaluating Molina's quality performance

Annually, Molina Healthcare, Inc. evaluates health plan quality performance using two important data sets. These data sets allow Molina to assess health plan performance for critical indicators of quality and member satisfaction.

#### First area of focus

Molina collects and reports Healthcare Effectiveness Data and Information Set (HEDIS®) measures to evaluate quality performance. HEDIS® measures, collected by health plans across the country, are related to key health care issues, such as well care and immunizations, preventive screenings, tests and exams, management of chronic conditions, access to care, medication management and utilization of services. Molina sets performance goals for each measure evaluated to identify areas of success, opportunities for improvement and priority areas of focus for the following year. Molina's HEDIS® results are available within the Health Resources section on the provider website at MolinaHealthcare.com/providers/az/medicaid/resource/HEDIS.aspx.

#### Second area of focus

Molina also works with external survey vendors to collect and report Consumer Assessment of Healthcare Providers and Systems (CAHPS®) member satisfaction survey results annually. Molina uses CAHPS® survey results to evaluate how satisfied our members are with the health care and services they receive from the health plan and providers. Molina also sets performance goals for CAHPS® to identify areas of success, opportunities for improvement and priority areas of focus for the following year. Molina's CAHPS® results are available within the Health Resources section on the provider website at **MolinaHealthcare.com/providers/az/medicaid/resource/CAHPS.aspx**.

If you have any questions or want additional information or printed copies with HEDIS® or CAHPS® results, please contact Provider Relations at **MCCAZ-Provider@MolinaHealthcare.com**.

## The Consumer Assessment of Healthcare Providers and Systems (CAHPS®)

The Consumer Assessment of Healthcare Providers and Systems (CAHPS®) is an industrystandard survey tool to evaluate patient satisfaction. Improving patient satisfaction has many benefits. It not only helps to increase patient retention but can also help increase compliance with physician recommendations and improve patient outcomes.

Focusing together on a positive patient experience will have many significant benefits to your practice:

- Increase patient retention
- Increase compliance with physician clinical recommendations
- Improve patient's overall wellness and health outcomes
- Ensure preventive care needs are addressed more timely
- Reduce no-show rates

Additional resources are available for office staff and patients:

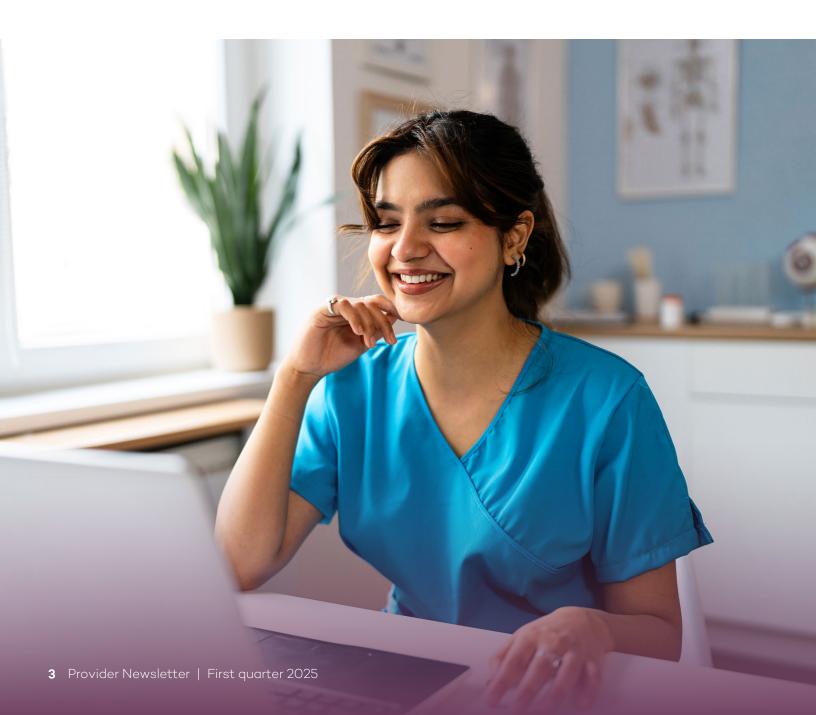

- For additional after-hours coverage, Molina members can call the 24-hour Nurse Advice Line
- Molina members can access Interpreter Services at no cost by calling Member Services
- Providers can access the Provider Web Portal at **MolinaHealthcare.com** to:
  - Search for patients and check member eligibility
  - Submit service request authorizations and/or claims and check status
  - Review Patient Care Plan
  - Obtain CAHPS® Tip Sheets
  - Participate in online Cultural Competency trainings (also available at MolinaHealthcare.com)

Please encourage your patients who have received the CAHPS® survey to participate. Listed below are several questions asked in the survey regarding patient care:

- When you needed care right away, how often did you get care as soon as you needed it?
- When you made an appointment for a check-up or routine care at a doctor's office or clinic, how often did you get an appointment as soon as you needed it?
- How often was it easy to get the care, tests and treatment you needed?
- How often did your personal doctor listen carefully to you?
- How often did your personal doctor spend enough time with you?
- How often did your personal doctor explain things in a way that was easy for you to understand?
- How often did you and your personal doctor talk about all the prescription medicines you were taking?
- How would you rate your personal doctor?

## **IMPORTANT:** Changes to NCQA Credentialing requirements effective July 1, 2025

There is a change coming to NCQA Credentialing standards, and we wanted to make you aware of it. Effective July 1, 2025, Molina will be required to verify that your license to practice is renewed on or before the expiration date. After July 1, practitioners with an expired license may no longer participate in the Molina network. Please be sure to renew your license in a timely manner to prevent any unnecessary terminations from occurring. Our system auto-verifies all licenses daily, so there's no need to submit a copy of your renewed license.

## Update provider data accuracy and validation

Providers must ensure Molina has accurate practice and business information. Accurate information allows us to support better and serve our members and provider network.

Maintaining an accurate and current Provider Directory is a state and federal regulatory requirement and a National Committee for Quality Assurance (NCQA) requirement. Invalid information can negatively impact members' access to care, member/primary care provider (PCP) assignments and referrals. Additionally, current information is critical for timely and accurate claims processing. Providers must validate their information on file with Molina at least once every ninety (90) days for correctness and completeness.

Failure to do so may result in your **REMOVAL** from the Molina Provider Directory.

Provider information that must be validated includes, but is not limited to:

- Provider or practice name
- Location(s)/address(es)
- Specialty(ies)
- Telephone and fax numbers and email
- Digital contact information
- Whether your practice is open to new patients (PCPs only)
- Tax ID and/or National Provider Identifier (NPI)

The information above must be provided as follows:

Delegated and other providers that typically submit rosters must submit a complete roster with the above information to Molina.

All other providers must log into their CAQH account to attest to the accuracy of the above information for each health care provider and/or facility in your practice contracted with Molina. If the information is correct, please select the option to attest. If it is incorrect, providers can make updates through the CAQH portal. Providers unable to make updates through the CAQH portal should contact their Provider Services representative for assistance.

Additionally, in accordance with the terms specified in your Provider Agreement, providers must notify Molina of any changes, as soon as possible, but at least thirty (30) calendar days in advance, of any changes in any provider information on file with Molina. Changes include, but are not limited to:

- Change in office location(s)/address, office hours, phone, fax or email
- Addition or closure of office location(s)
- Addition of a provider (within an existing clinic/practice)
- Change in provider or practice name, Tax ID and/or NPI
- Opening or closing your practice to new patients (PCPs only)
- Change in specialty
- Any other information that may impact member access to care

## 2025 Molina Model of Care provider training

In alignment with requirements from the Centers for Medicare & Medicaid Services (CMS), Molina requires PCPs and key high-volume specialists, including primary care, gastroenterology and oncology to receive training about Molina's Special Needs Plans (SNP) Model of Care (MOC).

The SNP MOC is the plan for delivering coordinated care and care management to special needs members. Per CMS requirements, managed care organizations (MCOs) are responsible for conducting their own MOC training, which means multiple insurers may ask you to complete separate training.

MOC training materials and attestation forms are available at **Moc AZ**, **Molina Medicare Model of Care** and **Model of Care Provider Training QRG**. The completion date for this year's training is December 15, 2025.

#### **Provider Manual updates**

The Provider Manual is customarily updated annually but may be updated more frequently as needed. Providers can access the most current Provider Manual at **MolinaHealthcare.com/** providers/az/medicaid/manual/medical.aspx.

## **Claims submission**

Molina strongly encourages providers to submit their claims electronically – including secondary ones. Electronic claims submission provides significant benefits to the provider, including:

- Reducing operational costs associated with paper claims (printing, postage, etc.)
- Increasing accuracy of data and efficient information delivery
- Reducing claim delays since errors can be corrected and resubmitted electronically
- Eliminating the delay in mailing

Molina offers the option to directly submit claims electronically to us via the Availity Essentials provider portal or your Electronic Data Interchange (EDI) clearing house.

If electronic claims submission is not possible, please submit paper claims to the following address:

Molina Healthcare of Arizona, Inc. PO Box 93152 Long Beach, CA 90809-9994

When submitting paper claims:

- Submissions are not considered "accepted" until received at the appropriate claims PO Box.
- If claims are sent to the wrong PO Box, they will be returned for appropriate submission.
- Submissions are required on original red and white CMS-1500 and CMS-1450 (UB-04) claim forms.
- They will be rejected and returned if the submission is not completed on the required forms. This includes black and white forms, copied forms and any altering – including handwritten claims.
- They must be typed using black ink in either 10- or 12-point Times New Roman font.

For more information, please see CMS claims submission guidance at **cms.gov/Medicare/Billing/ ElectronicBillingEDITrans/1500**.

### Member incentives

Molina has launched its Welcome to Molina's ePortal – Member Self Services, which allows members to complete an attestation to qualify for a gift card incentive. Currently, Molina is offering incentives of \$50 for a well-child visit and \$100 for breast cancer screening. If you have any questions, you can visit Member Rewards **here**.

#### Healthcare services updates

Effective October 1, the Arizona Health Care Cost Containment System (AHCCCS) has updated the EPSDT requirements as listed in the AMPM **430\_AttachmentA.docx** to include:

• Syphilis testing beginning at age 15

Reminder of the following required screenings:

- Screening for other STI's beginning at age 10
- SUD assessment beginning at age 11
- Postpartum depression screening for mother/parent at one, two, four and six months and a six month EPSDT visit
- Autism-Specific Developmental Screening required at the 18- and 24-month visit

Please be sure that you are referencing the AHCCCS EPSDT Periodicity Schedule for other required screenings.

Oral Health Care Recommendations for Preventive Pediatric Oral Health Care is required as listed in the AMPM **431\_AttachmentA.pdf**.

It is never too early to have children seen by a dentist. Oral screenings and fluoride varnish begin as early as six months during EPSDT/well-child visits per AMPM **430\_AttachmentA.docx**.

It is recommended that babies have a referral to be seen by a dentist as early as six months of age.

The American College of Obstetricians and Gynecologists report that optimal maternal oral hygiene during the perinatal period may decrease oral bacteria, including gingivitis, lesions, tooth mobility, tooth erosion, dental caries and periodontitis. It has also been identified that there is a possible association between periodontal infection and preterm births.

Pregnant women who suffer from vomiting secondary to morning sickness, hyperemesis, gravidarum or gastric reflux during late pregnancy, can neutralize the associated acid with antacids or rinsing with baking soda solution.

Referrals to care management can be sent at any time to **AZCMReferrals@MolinaHealthcare.com**. Let us help you and our members get connected to the care they need.

### Grievances and appeals updates

For grievances and appeals this last year, we updated a few items to facilitate submission and resolution.

Availity was updated to allow record submission, and is the quickest and preferred method for dispute submissions, separate from a reconsideration request.

We updated and allow second-level disputes internally to assist with Fair Hearings volumes.

#### Quality management reminders

The quality management (QM) team is required to ensure providers are aware of the following reporting expectations set forth by the AHCCCS.

#### Incident, accident and death reporting

Please ensure you have registered with the AHCCCS Quality Management (QM) Portal located **here**. Within the portal, you will find a guide describing how to create a new incident, accident and death (IAD) report/case for submission directly to Molina QM. All quality of care concerns or reportable events requires immediate notification to QM upon becoming aware of the incident, accident or death. IAD reporting requirements can be found within **AMPM Policy 961**.

In the event you have an IAD to report and may still be waiting for access to the AHCCCS QM Portal, please email QM at MCCAZ-QOC@MolinaHealthcare.com.

Molina QM asks that our providers be responsive and timely to all Molina QM inquiries.

#### Seclusion and restraint (SAR) reporting

All seclusion and restraint (SAR) events are to be submitted to Molina QM within five (5) business days of the event. SAR documentation, including, AMPM Policy 962 – Attachment A, SAR initiating orders and flowsheets/monitoring logs are to be submitted to MCCAZ-QOC@MolinaHealthcare.com.

AHCCCS requirements for SAR reporting to Molina QM can be found at **AMPM Policy 962**. Any SAR event that results in an injury or complication that requires medical attention must be reported to Molina QM via the AHCCCS QM Portal as an IAD within 24 hours of the incident.

In May 2024, Molina QM reinstated monthly SAR reporting requirements. Molina QM developed the Seclusion and/or Restraint Monthly Reporting Form, which includes a provider attestation due to Molina QM by the 5th of each month. Molina QM acknowledges that AHCCCS no longer requires SAR monthly reporting; however, as a best practice, Molina reinstated the monthly reporting requirement for quality performance tracking and trending and to ensure sustained compliance with AMPM Policy 962.

**Please note:** The Seclusion and/or Restraint Monthly Reporting Form is required for all of our SAR contracted providers even if no individual SAR events took place within the reporting month. Molina QM can be contacted at **MCCAZ-QOC@MolinaHealthcare.com** for any questions and/requests involving SAR reporting, education or training.
