NOTICE: Behavioral Health Claims Project /Prior Authorization Denial

Dear Behavioral Health Provider,

Throughout 2022, Molina Healthcare applied updates to our Prior Authorization Code Look- Up Tool to reflect the appropriate authorization guidelines. As a result, Behavioral Health providers may have received denials for prior authorization required after a certain number of service units were rendered.

Our claims team has initiated an internal project to review the impacted claims, address, and rework for reimbursement. The list of impacted service codes is provided below.

Behavioral Health providers are not required to resubmit claims. The claims sweep project will capture all claims on file with service date as of July 1, 2022, through October 31, 2022. Any claims with the service date after October 31, 2022, will be excluded from this project and processed through normal processes.

As a reminder, it is important to verify authorization requirements prior to rendering service to a Molina member. The code look-up tool can be accessed via our Molina Website at MolinaHealthcare.com/NV

Should you require additional assistance, please contact our Provider Contact Center at (833) 685-2103 or contact our Provider Relations Department at NVProviderRelations@Molinahealthcare.com

We greatly value and appreciate your input and time. Thank you for partnering with us to achieve our common goal of improving the health of your patients, our members.

SERVICE CATEGORY	UPDATE TYPE	CODES
Behavioral/Mental Health, Alcohol-Chemical Dependency	Prior Auth after X units	H0005
