

## Level of Care Guidance

Dear Provider,

The following revenue codes should be communicated to Molina's Utilization Management (UM) team according to the level of care provided. The expectation is that the authorization matches rendered services.

For example:

- Rev code for trauma = 208
- Rev code for PICU = 203
- Rev code for normal newborn = 170
- Rev codes for NICU Level 1 = 171
- Rev codes for NICU Level 2 = 172
- Rev codes for NICU Level 3 & 4 = 173 & 174

**If a member requires a change in the level of care during an inpatient stay, the provider rendering services must contact Provider Services at (833) 685-2103 to notify our UM team of the change.**

Thank you,

Molina Healthcare of Nevada
