Cardiology ECHO: Cardiovascular Medicine in the Primary Care Settings ECHO Series

Dear Providers,

Molina Healthcare of Nevada announces a seven-session free training series offered by Project ECHO Nevada entitled Cardiovascular Medicine in the Primary Care Settings.

This program aims to explore various areas of cardiovascular health. Each session will include a didactic presentation spotlighting an aspect of cardiovascular disease, including topics such as atrial fibrillation, hypertension, statin therapy, and more.

This seven-session ECHO series launches Monday, Sept. 16, 2024, from 12 to 1 p.m. PT.

This is a free program with CME/CEU credit for physicians, nurses, MFTs, CPCs, and long-term care administrators. In addition to receiving free CME/CEU, participants will have the opportunity to present their real-world patient cases for review and consultation by a multidisciplinary team of experts.

To register, visit <https://med.unr.edu/echo/programs/cardiology>

Please see the attached program flyer for additional training dates and registration.
